A photograph of a rectangular metal box, possibly a piece of equipment or a container, with a weathered and riveted surface. The box is positioned in a cluttered room with a blue wall and a floor covered in debris. A white tag is attached to the left side of the box. The number '1083' is painted in white on the front panel. There are dark, irregular marks on the top and front of the box. A small, dark rectangular label is visible near the bottom right of the front panel. The bottom of the box features a perforated metal grille.

1083
